

Variables

Tres ejercicios para practicar idiomas

The Fortune Teller

Why pay a fortune teller when you can just program your fortune yourself?

- Store the following into variables: number of children, partner's name, geographic location, job title.
- Output your fortune to the screen like so: "You will be a X in Y, and married to Z with N kids."

The Age Calculator

Forgot how old you are? Calculate it!

- Store the current year in a variable.
- Store your birth year in a variable.
- Calculate your 2 possible ages based on the stored values.
- Output them to the screen like so: "You are either NN or NN", substituting the values.

The Lifetime Supply Calculator

Ever wonder how much a "lifetime supply" of your favorite snack is? Wonder no more!

- Store your current age into a variable.
- Store a maximum age into a variable.
- Store an estimated amount per day (as a number).
- Calculate how many you would eat total for the rest of your life.
- Output the result to the screen like so: "You will need NN to last you until the ripe old age of X".
